

## Taxability of scholarships and grants in 2018

The Tax Reform Act of 1986 specifies that

“scholarship amounts granted ... for expenses incurred ... are taxable income, if the aggregate scholarship ... amounts ... exceed tuition and fees (not including room and board), books, supplies, and equipment required for courses of instruction at [an eligible] institution.”

Any *general* scholarship or grant aid that is received in a calendar year may be regarded as first applying toward excludable expenses (i.e., tuition, required fees, and required books, supplies, and equipment) even though family resources, loans, or student employment may in fact have initially paid those expenses. You should retain records (e.g., copies of relevant bills, receipts, checks) to document your excludable expenses. If you receive general scholarship or grant aid in excess of the cost of tuition, fees, and books, the excess amount is taxable. In addition, *specific* scholarships or grants (e.g., health insurance grants) that are directed toward expenses other than tuition, fees, and books are subject to taxation.

Other forms of financial aid — loans and student employment — are not covered by these provisions of the tax law. ***Earnings from student employment are taxable as wages, as is any summer stipend you may have received from the college.*** If you had any campus earnings during 2018, a W-2 form was issued by the Williams College payroll department and is available to download from your Williams Human Resources account (ephr.williams.edu). If you had a taxable summer stipend, a 1099 was issued by the Williams College Controller's Office.

The following worksheet will help you determine the amount of taxable scholarship or grant aid you may have received in 2018. **Note that the terms referred to are for the spring and fall semesters of 2018 (the calendar year), not the fall and spring semesters of 2018-19 (this academic year).** If you no longer have copies of your award notice(s) that cover these periods, you can view (and print) them from your Williams Student Records account (Finances > View Financial Aid > select Aid Year 2018 to view the spring 2018 grants/scholarships and Aid Year 2019 to view the fall 2018 grants/scholarships).

***Also note that the information used in preparing Form 1098-T, related to tuition tax credits, is for billed tuition and scholarship and grant aid applied to your student account during calendar year 2018. You should not use Form 1098-T to calculate your taxable scholarship and grant aid.***

If you are a United States citizen or permanent resident completing an income tax return and you had taxable scholarship and grant aid, enter the amount of taxable aid to the left of the entry box for “wages, salaries, and tips” with the annotation “SCH” – for example, “SCH \$5,000.” Include this amount with your wages, salaries, and tips in your entry for line 7 Form 1040.
